Lower level: 2 double rooms with private bathroom (shower & WC, double beds, A / C, TV, pool view)

Vacation Home In ancient times the island of Delos, just off the coast of Mykonos, was a peaceful haven and a common ground where Greeks would gather to worship their gods and seek sanctuary. Perched on a gentle hill directly across from the small island, this beautiful estate gazes over it and is surrounded by its mysterious energy and light. Comprised of two main houses measuring over 1.100m<sup>2</sup>, the compound has just been completed and features 16 bedrooms and 17 bathrooms along with many more facilities. The grounds of over 8.000m<sup>2</sup> have been meticulously landscaped with Mediterranean flora and plants which flourish in this climate. Indoor and outdoor reception and dining areas are abundant throughout the estate, while two overflow-design swimming pools act as attraction points and gathering places for each of the two structures. Much attention has been paid to the aesthetic and technical details which create an atmosphere of relaxed sophistication. Features include Instabus lighting, central air-conditioning, underfloor heating, a helipad, two fully

equipped kitchens, outdoor barbecues, guest bathrooms, and maid's rooms with en suite bathrooms. The clarity of the light during the day and the ancient energy emanating from Delos during full moon nights are sensational. But unarguably the most impressive time to be at this property is at sunset. The twinkling and ever-changing colors of the sun play a game with the structures and the setting seems to be out of a fairy tale. Properties of this quality, size and location rarely appear on the market, and the Gemini Estate awaits to fill its new owners with joy.

Strategically located, the villa faces west granting panoramic views of the sunset over the Aegean and the islands of Delos, Rhenia and Tinos while its southwestern position on the island provides easy access to the island's Chora and the nearby beaches and markets of Agios Ioannis and Ornos.

Allowing to enjoy the serene isolation that Golden Sunset Villa I offers while benefiting from the easy access, this area is one of the last ones on the island that are very quiet and tranquil and offer privacy and peace of mind while being still close to all the cosmopolitan spots that the island is very famous for. A 10 min drive will get you in the middle of everything in the famous socialite and vibrant life in the old town of Mykonos, a 5min drive to the glamorous beach and resort of Ornos and a 3min drive to the closest supermarket in Korfos just before Ornos. It is a hillside hideaway in a secluded nearly rural area although close to the town, where you can relax after a long day at the magnificent beaches of the island or a long night in the vivid nightlife.
